

Assignment 1

Question 1:

Students have to design following webpage as part of their Assignment 1. The design should use CSS External stylesheet for *semantic elements*, *box-sizing*, *display*, *float*, *position* and *clear* properties (use of *table* is not allowed).

1. Set the *box-sizing* property to each of the values; *content-box* and *border-box*, describe and justify the impact of these different attribute values on the layout design. For reference, study following link: [Marks: 3]

- https://www.w3schools.com/css/css3_box-sizing.asp
- https://www.w3schools.com/css/css_boxmodel.asp

2. Following are the supplementary details about different sections of the page:

1. **News Section:** [Marks: 2]

- In news section add links to the real news from BBC sports page. Create it using the HTML unordered list.

2. **International Sports Festival Section:** [Marks: 3]

- Images in this section of the page are provided along with the Assignment document.

3. **Events Section:** [Marks: 2]

- Events section remains fixed even if you scroll down the webpage. (see Figure. 1)
- The hyperlinks in the Events section should redirect to the target location in another webpage (Events.html). Figures 2 shows the screenshot of that page.
